

ImageStream Training & Certification

ICNO Certification

Mar. 29 - Apr. 2, 2010 • Webinar

ICNO provides online training for network operators who are new to ImageStream routers, or for those who would like to learn more. This course is designed for the beginner, but participants should have a basic understanding of TCP/IP.

- Introduction to ImageStream routers
- TCP/IP primer
- DHCP client and server
- QoS basics
- IPTABLES firewall basics
- VPN technologies
- WAN technologies
- Static routing and OSPF

\$1,299

Early Bird: Register by March 1 to Save \$100, or \$200 with ICNA

Taught by Butch Evans, Trainer

ICNA Certification

May 3 - 7, 2010 • Dallas, TX

The ImageStream Certified Network Administrator (ICNA) certification is designed for network administrators with an advanced understanding of TCP/IP and significant experience with ImageStream routers.

- Introduction to Network Design
- Advanced QoS
- Advanced Firewall
- Advanced OSPF
- Introduction to BGP
- ATM & PPPoE for DSL
- Lawful intercept/CALEA
- Introduction to add-on packages

\$1,999

Early Bird: Register by April 5 to Save \$200, or \$400 with ICNO

Taught by Butch Evans, Trainer

Butch Evans

One of the industry's best-known technical consultants and trainers, Butch began engineering networks in 1994 for corporate and public organizations. Butch has conducted ICNO and ICNA certifications for ImageStream and now leads our on-line training certification.

Register By Phone or Web

Only \$2,698 for Both!

Register for both ICNO and ICNA by March 1, 2010 and save \$600.
